in Lecture Hall I of the Physics Institute

Hedwig Werner
TNG Technology Consulting

**„The Physicist's Path to IT Consulting:
A Journey of Learning and Problem-Solving”**

Are you a physics student wondering about your career options after graduation? In this talk, discover how your physics degree can open doors to a successful career in IT consulting, even without a traditional computer science background. Learn about the valuable problem-solving abilities and analytical thinking skills you've developed during your studies and how they are highly sought after in the tech industry. I'll share my personal journey as physicist at TNG Technology Consulting, providing insights into the challenges and rewards of transitioning into this exciting field. As a Senior Consultant and Deputy Head of Internal IT, I'll highlight the importance of continuous learning and adaptability in today's fast-paced tech landscape. Join me to explore the synergy between physics and IT consulting and be motivated to take the first steps towards an exciting new career path after university.

Everybody is welcome, especially students of all semester
